Apprenticeship Summary

Overview of the Role

Leading frontline care for vulnerable adults within their own homes, day care centres, residential and nursing homes, and other healthcare settings.

Occupation Summary

Lead Adult Care Workers are the frontline staff who help adults with care and support needs to achieve their personal goals and live as independently and safely as possible, enabling them to have control and choice in their lives. In addition, Lead Adult Care Workers have responsibility for providing supervision, frontline leadership, guidance, and direction for others, or working autonomously, exercising judgement and accountability.

Typical job titles include Care Officer, Care Supervisor, Senior Care Worker, Supervising Care Worker, Senior Support Worker, Relief Team Leader, Social Work Assistant, Social Services Officer, Outreach Development Worker, Community Support Worker, Community Outreach Worker, Community Development Worker, Family Support Worker, or Personal Assistant. These could all specialise in a variety of areas such as learning disability, mental health, drug and alcohol misuse, homecare, dementia and end-of-life care.

As a Lead Adult Care Worker, you will make a positive difference to someone's life when they are faced with physical, practical, social, emotional or intellectual challenges. You will be expected to exercise judgement and take appropriate action to support individuals to maintain their independence, dignity, and control. By providing leadership, guidance, and direction at the frontline of care delivery you will be instrumental in improving the health and wellbeing of those receiving care and support. Lead Adult Care Workers will in some circumstances have delegated responsibility for the standard of care provided and may supervise the work of other care workers. This exercising of autonomy and accountability means leading and supporting others to comply with expected standards and behaviours.

Lead Adult Care Workers may work in residential or nursing homes, domiciliary care, day centres or some clinical healthcare settings. As well as covering Lead Adult Care Workers this standard also covers Lead Personal Assistants who can work at this senior level, but they may only work directly for one individual who needs support and/or care services, usually within their own home.

Qualifications

Level 3 Diploma in Adult Care approved by Skills for Care from August 2025.

Assessment Methods

The end-point assessment (EPA) for this standard consists of two assessment methods:

Situational Judgement Test

Professional Discussion

Assessment Order

The situational judgement test must be passed before the professional discussion can take place.

Gateway Considerations

Before the apprentice can start their EPA, the training provider is required to upload the following:

- Photo ID
- Level 3 Diploma in Adult Care approved by Skills for Care from August 2025
- Care Certificate:
 - The individual must meet the standards as set out in the Care Certificate. The Care Quality Commission expect that providers that employ healthcare assistants and social care support workers follow these standards to make sure new staff are supported, skilled and assessed as competent to carry out their roles.
- Self-Assessment
 - The individual must undertake a self-assessment in the last month of their apprenticeship to enable them to see whether they are confident that they have taken on board all aspects of the occupation. Self-assessment must be submitted at gateway, and it will be used as a source of evidence for the professional discussion. A self-assessment [template](#) is available to download.

At gateway, the training provider is also requested to sign a declaration to confirm that the English and maths requirements have been met in line with the funding rules.

Situational Judgement Test

Assessment Overview

The situational judgement test will consist of **60 questions** with four possible answers for the apprentice to choose from, one of which is correct. One mark is awarded for each correct answer. The questions will assess the knowledge and skills criteria assigned to this assessment method.

The apprentice must pass the situational judgement test before the professional discussion.

Timing

The test will last **90 minutes**.

Location

The test can be taken on paper or online. This is a formal assessment which must take place in a controlled environment.

Grading

This assessment is graded according to the table below.

Marks	Percentage	Grade
0-39	0-65%	Fail
40-49	67-82%	Pass
50-54	83-90%	Merit
55-60	92-100%	Distinction

Results for online exams are distributed within **two working days** of test completion and paper-based exam results are distributed within **five working days** of Training Qualifications UK receiving the required documents.

Professional Discussion

Assessment Overview

The professional discussion is a structured, two-way dialogue between the apprentice and the End-Point Assessor.

The apprentice must achieve a passing grade in the situational judgement test before they can take professional discussion.

The professional discussion will last **45 minutes** (+10% variance to allow the apprentice to finish their final answer or point).

Location

The professional discussion may take place face-to-face or remotely in a controlled environment.

Scope of the Professional Discussion

The professional discussion will be structured into four sections:

- Apprentice Reflection/Self-Assessment
- Personal Development Reflection
- Care Sector
- Occupational Competency and Learning Amplification

Apprentices are permitted to bring notes and their self-assessment into the professional discussion.

Grading

This assessment is graded distinction, merit, pass or fail according to the grading criteria.

If the apprentice does not meet all the pass criteria, this assessment will be graded as a fail.

Professional Discussion - Grading Criteria

Fail	<ul style="list-style-type: none"> • The apprentice fails to provide sufficient answers to meet all of the assessment criteria. • The apprentice reads directly from their notes throughout the discussion. • The apprentice fails to meet the required pass level.
Pass	<ul style="list-style-type: none"> • The apprentice is able to answer all questions at a basic level giving sufficient information to meet the criteria. • The End-Point Assessor leads the discussion, asking additional probing questions to enable the apprentice to expand on their answers. • Apprentice responses are knowledge-based with limited examples of practice which do not extend beyond narrative facts explaining the role of a Lead Adult Care Worker. • The apprentice shows an understanding of the six C's within their answers via making reference to these. Answers are limited to reference only to give assurance of their awareness of them. • The apprentice relies heavily on their notes to guide them through the discussion and does not lead the discussion.
Merit	<ul style="list-style-type: none"> • The apprentice gives answers freely and confidently with minimal requirement of the End-Point Assessor to ask additional probing questions. Minimal additional probing allows the apprentice to enhance their answers. • The apprentice links knowledge to practice, giving examples of how they meet the criteria in practice, without prompting, and shows some evidence of evaluation/analysis within their discussion points. • The apprentice demonstrates through examples how they undertake the role of a Lead Adult Care Worker. • The apprentice shows a good in-depth understanding of the six Cs within their answers. • The apprentice uses prepared notes sparingly and mainly for reference during the discussion and for much of the assessment leads the discussion.
Distinction	<ul style="list-style-type: none"> • The apprentice demonstrates confidence and excellence in their knowledge by talking freely with minimal to no additional probing questions. The strength in the answer comes from the apprentice independently. • The apprentice's language shows clearly how they relate theory to practice with numerous examples also containing evidence of evaluation and analysis within their discussion points. • The apprentice can give detailed examples of how they meet the criteria within their job role whilst also comprehending their role limitations. • The apprentice embeds their understanding of the six Cs into their examples of practice, reflecting excellent understanding. • The apprentice uses prepared notes on limited occasions and mainly for reference during the discussion and for the vast majority of the assessment leads the discussion. • The apprentice demonstrates their leadership skills with examples of how they support other staff members in the setting. • The apprentice shows knowledge and understanding above the level they are working at (non-compulsory).

Skills and Behaviours

Skills

- Undertake the main tasks and responsibilities according to their job role.
- Treat people with respect and dignity and honour their human rights.
- Communicate clearly and responsibly.
- Support individuals to remain safe from harm.
- Champion health and well-being for the individuals they support and for work colleagues.
- Work professionally and seek to develop their own professional development.

Behaviours - The Key Behaviours Are Summed Up by the “Six Cs”:

- **Care** – is caring consistently and enough about individuals to make a positive difference to their lives.
- **Compassion** – is delivering care and support with kindness, consideration, dignity and respect.
- **Courage** – is doing the right thing for people and speaking up if the individual they support is at risk.
- **Communication** – good communication is central to successful caring relationships and effective team working.
- **Competence** – is applying knowledge and skills to provide high quality care and support.
- **Commitment** – to improving the experience of people who need care and support ensuring it is person centred.

Overall Grading

This standard is graded as distinction, merit, pass or fail. Each assessment component is graded individually. Once all assessment components have been completed the grades are combined as described in the table below to determine the overall grade.

The apprentice needs to get the relevant grade in every single assessment component to achieve that grade overall.

Situational Judgement Test	Professional Discussion	Overall Grade
A fail in any assessment component will result in a fail overall		
Pass	Pass	Pass
	Merit	Merit
	Distinction	Merit
Merit	Pass	Pass
	Merit	Merit
	Distinction	Distinction
Distinction	Pass	Merit
	Merit	Merit
	Distinction	Distinction

Resits and Retakes

Apprentices who fail the end-point assessment will be offered one opportunity of a resit or retake. A resit does not require further learning, whereas a retake does. Resits/retakes are not offered to apprentices who pass and wish to attempt to achieve a higher grade.

Situational Judgement Test

Apprentices achieving between 25 and 39 correct answers may retake the assessment on **one further occasion within three months**. Apprentices achieving fewer than 25 correct answers will not be allowed to retake the assignment until they have completed a professional review of performance and acted on its findings.

If a resit or a retake is required, the maximum grade will be capped at a pass.

Professional Discussion

If a retake is necessary, the maximum award achievable would be a pass. In exceptional circumstances, a resit may be arranged and graded as the first professional discussion pass, merit or distinction.

In the event of either of the above, the professional discussion should take place within a **maximum of three months** from the original date.

Appeals
