# Apprenticeship Summary

## Overview of the Role

Managing individuals, teams, or projects to meet private, public, or voluntary organisational goals.

## Occupation Summary

This occupation is found in small, medium, large, and multinational organisations in private, public, and third sectors across all areas of the economy. A team leader is found in organisations where there is a need for first-line management and support for teams and senior management.

The broad purpose of this role is to provide leadership with operational and project responsibilities. Team leaders manage individuals, teams, or elements of a project, offering direction, instructions, and guidance to achieve set goals. They are vital for the smooth functioning of all departments within an organisation and are often responsible for ensuring that functions are correctly administered and maintained in line with legislation and the organisation's procedures.

In their daily work, an employee in this occupation interacts with colleagues from various internal departments, including operations, human resources, finance, legal, IT, sales, and marketing. This role also involves interaction with external stakeholders such as customers, clients, and suppliers. It may include off-site and hybrid working.

An employee in this occupation is responsible for supporting, managing, and developing individuals; managing projects; planning and monitoring workloads and resources; delivering operational plans; resolving problems; and building relationships both internally and externally.

Team leaders may work as part of a network or in various team settings. They operate within agreed budgets and available resources, reporting to mid-level and senior managers. While they may occasionally make decisions, they more often guide or influence the decisions of others, including collecting and interpreting data to identify trends, analysing resources, and finding ways to save money and improve efficiency.

Team leaders understand how their role supports the broader organisational structure. They apply codes of practice, legislation, and regulations relevant to their organisation's areas of operation. This includes not only legal and ethical responsibilities but also equity, inclusion, and the sustainability impacts of the organisation.

## Typical Job Titles

Duty Lead, Project Lead, Shift Supervisor, Supervisor, Team Leader, Trading Manager.

## Professional Recognition

This apprenticeship aligns with The Chartered Management Institute for Associate Membership, and the Institute of Leadership for Associate Membership. More details can be found by contacting the professional body.

# Assessment Methods

The end-point assessment (EPA) for this standard consists of two assessment methods:

Presentation with questions

Professional discussion underpinned by a portfolio of evidence

## Assessment Order

The assessment methods can be delivered in any order. The result of one assessment method does not need to be known before starting the next.

## EPA Window

The EPA period starts when Training Qualifications UK (TQUK) confirms the gateway requirements have been met and is typically three months.

## Gateway Considerations

Before the apprentice can start their EPA, the training provider is required to upload the following:

- Photo ID
- Portfolio of evidence

At gateway, the training provider is also requested sign a declaration to confirm that the English and maths requirements have been met in line with the funding rules.

# Presentation with questions

## Overview

In the presentation with questions, the apprentice will deliver a presentation on a set subject to the End-Point Assessor. The assessor will then ask questions after the presentation. This gives the apprentice the opportunity to directly demonstrate the [knowledge, skills and behaviours \(KSBs\)](#) mapped to this assessment method, specifically those relating to communication and presentation.

The End-Point Assessor will conduct and assess the presentation with questions, which must be structured to give the apprentice the opportunity to demonstrate the KSBs to the highest available grade.

The presentation and questions must last **50 minutes**. This will typically include a presentation of **20 minutes** and questioning lasting **30 minutes**. The End-Point Assessor must use the full time available for questioning, and can increase the total time of the presentation and questioning by up to 10% to allow the apprentice to complete their last point or respond to a question if necessary.

The presentation with questions must take place in a suitable venue, for example the employer's premises, in a [controlled environment](#), free from any distractions. The presentation with questions can be conducted by video conferencing using Microsoft Teams.

## Presentation

Post gateway, and following a discussion with the employer, TQUK will give the apprentice their presentation topic. The presentation will be based on one of the following:

- reviewing ways to reduce cost and increase efficiency in a business environment
- using data and technology to support organisational goals
- improving team performance to support organisational goals
- leading and supporting a team through a period of change within the organisation.

As well as the above topics, further topic areas can be added, provided they cover the relevant KSBs and give adequate opportunity for the apprentice to meet the required grading criteria.

The presentation must include a summary of the apprentice's role as a team leader, what they do and how this is relevant to their role and the organisation. It should cover the following themes:

- data collection and benchmarking
- problem analysis and conclusions
- people and relationships
- future plans and opportunities.

The apprentice must submit any presentation materials to TQUK by the end of week four of the EPA period. The apprentice must also notify TQUK at that point of any technical requirements for the presentation.

During the presentation, the apprentice must have access to:

- audio-visual presentation equipment
- a flip chart and writing and drawing materials
- a computer.

The End-Point Assessor must have at least **two weeks** before the presentation is delivered by the apprentice to review any presentation materials and allow them to prepare questions. The assessor must give the apprentice at least **one week's notice** of the presentation date.

## Questions

The End-Point Assessor must ask questions after the presentation, to seek clarification where required and to assess the level of competence against the grading descriptors.

The End-Point Assessor must ask **at least five** questions. Follow up questions are allowed where clarification is required.

## Grading

The End-Point Assessor will make all grading decisions.

This assessment is graded fail, pass, or distinction, according to the [grading criteria](#).

To achieve a pass in this assessment, the apprentice must meet all the pass criteria. To be awarded a distinction, they must meet all the pass criteria and all the distinction criteria.

If the apprentice does not meet all the pass criteria, this assessment will be graded as a fail.

# Portfolio of Evidence

Apprentices must compile a portfolio containing evidence during the on-programme period of the apprenticeship to demonstrate the knowledge, skills and behaviours (KSBs) that the professional discussion will assess. The portfolio will typically contain **16 discrete pieces of evidence**.

Evidence should be mapped against the KSBs assessed by the professional discussion and may be used to demonstrate more than one KSB. The apprentice must provide evidence for all the KSBs. Incomplete portfolios will be rejected at the gateway stage.

The [Portfolio Mapping and Tracking Form](#) allows the apprentice to identify which piece of evidence meets each KSB.

Evidence sources may include workplace documentation and records, for example:

- workplace policies and procedures
- witness statements
- annotated photographs
- video clips with a maximum total duration of five minutes; the apprentice must be in view and identifiable.

Any employer contributions to the portfolio of evidence should focus on direct observation of performance (a witness statement, for example) rather than opinions.

This is not a definitive list; other evidence sources are possible. However, the evidence provided must be valid and attributable to the apprentice.

**The portfolio of evidence should not include reflective accounts or any methods of self-assessment.**

As the portfolio is to underpin the professional discussion, it is not directly assessed or marked. It will only be reviewed to prepare questions for the professional discussion, and the End-Point Assessor will not be required to give feedback on the portfolio after this review.

# Professional Discussion

## underpinned by a portfolio of evidence

### Assessment Overview

In the professional discussion, the End-Point Assessor and the apprentice have a formal two-way conversation to allow the apprentice to demonstrate the [knowledge, skills and behaviours \(KSBs\)](#) mapped to this assessment method.

The End-Point Assessor will conduct and assess the professional discussion, which must be structured to give the apprentice the opportunity to demonstrate the KSBs to the highest available grade.

The purpose is to assess the apprentice's competence against the following themes:

- building a high performing team
- communicating and implementing operational plans
- managing change and continuous improvement
- using technology
- contributing to a project.

The End-Point Assessor must have at least **two weeks** to review the supporting documentation in the portfolio of evidence. The assessor must give the apprentice at least **one week's notice** of the date of the professional discussion.

The apprentice must have access to their portfolio of evidence during the professional discussion so they can refer to and use evidence from it to illustrate their answers.

The professional discussion must last for **60 minutes**. The End-Point Assessor can increase the time of the professional discussion by up to 10% to allow the apprentice to respond to a question if necessary. No new questions will be asked after the time limit has been reached.

The End-Point Assessor must ask at least **five questions**. Follow-up questions are allowed where clarification is required.

The professional discussion must take place in a suitable venue, for example the employer's premises, in a [controlled environment](#), free from any distractions. The professional discussion can be conducted by video conferencing using Microsoft Teams.

### Grading

The End-Point Assessor will make all grading decisions.

This assessment is graded fail, pass, or distinction, according to the [grading criteria](#).

To achieve a pass in this assessment, the apprentice must meet all the pass criteria. To be awarded a distinction, they must meet all the pass criteria and all the distinction criteria.

If the apprentice does not meet all the pass criteria, this assessment will be graded as a fail.

K4 Project management tools and techniques.	
K8 Time management and prioritisation tools.	
S6 Use digital tools for planning and project management to monitor project progress, taking corrective action to deliver against the project plan.	
B3 Takes accountability and ownership of their tasks and workload.	

# Overall Grading

The overall grades available for this apprenticeship are fail, pass, or distinction. Each assessment component is graded individually. Once an apprentice has completed all assessment components, the grades are combined as described in the table below to determine an apprentice's overall grade.

Presentation with questions	Professional Discussion underpinned by a portfolio of evidence	Overall Grade
A fail in any assessment component will result in a fail overall		
Pass	Pass	Pass
Distinction	Pass	Pass
Pass	Distinction	Pass
Distinction	Distinction	Distinction

## Resits and Retakes

If an apprentice fails one or more assessment method(s), they are eligible for a resit or a retake at their employer's discretion. The apprentice's employer needs to agree that a re-sit or re-take is appropriate.

A resit does not need further learning, whereas a retake does. The apprentice should have a supportive action plan to prepare for a resit or a retake.

Resits are typically taken within two months of the fail notification. The timescale for a retake is dependent on how much retraining is required, but they are typically taken within three months of the fail notification.

If the apprentice fails the presentation with questions assessment method, they will need to be given a new topic to present on.

Failed assessment methods must be resat or retaken within a six-month period from the fail notification, otherwise the entire EPA will need to be resat or retaken in full.

If an apprentice requires a resit or retake, their EPA grade will be capped at a pass, unless Training Qualifications UK determines there are exceptional circumstances.

Resits and retakes are not offered to an apprentice wishing to move from pass to a higher grade.

## Appeals

Training Qualifications UK's Appeals Policy, including time frames, can be found [here](#).
