Fees and pricing

August 2023

Fees & pricing play a major part in any centre or training provider's decision to work with an Awarding / End-Point Assessment Organisation. That's why we're always transparent and make the financials as easy as possible to get to grips with. Our prices are competitive without compromising on our quality assurance standards.

Here, we'll take you through the different fees & pricing for our Awarding and End-Point Assessment services.

TQUK will, in all cases, take reasonable steps to publish clear, up-to-date, and easily accessible fees & pricing information for potential purchasers of qualifications and end-point assessments and satisfy reasonable planning requirements. Where we cannot publish a finalised fee, TQUK shall instead provide a reasonable indication of the likely fees and make it clear that the fee is indicative.

All amounts and fees stated or referred to shall be payable in pounds sterling and are exclusive of value-added tax, which shall be added to invoices at the appropriate rate.

All of our qualifications are available to purchase outside of England. Fees & pricing apply both domestically and internationally with the exception of TQUK Business HUB regions and fees & pricing, which have been specifically advertised as UK, Domestic or International.
